

F05266

RF-WIEGAND RECEIVER 12 VDC

DESCRIPTION

- Radiofrequency interface to integrating AXESKEY 868Mhz range distance's remote controls in an Access control central, AC Plus ref. 4410 next to the door controller ref. 4420, or directly in the IP_AXES systems.
- It also allows to add hands-free identifiers with the corresponding HF Hands-free antenna.
- The receiver codifies the emitter's signal in three different protocols depending on its configuration: Clock&Data, Wiegand 26 and Wiegand 37.
