F02339

MDS REPEATER

Reference	EAN
2339	8424299023397

Description.

Description

To regenerate digital BUS signal from panels or Decoders transmitted through the twisted pair wires of the installation.
Required:

- When BUS length is greater than 1200 m. One repeater every 1200 m.
- When connecting over 120 Decoders.

Technical Details

10 Elements DIN RAIL Format. Supply: 12 Vdc. It is recommended to install a Ref. 8837 or ref. 88403 power supply beside the repeater in order to avoid voltage droping through the cable.
