Description.

Description

The New SKYLINE electronic intercom and video intercom panel is a robust and elegant panel, which stands out for its durability and beauty, resistance and reliability.

SKYLINE is the new line of electronic and video intercom entrance panels with a continuous profile and modular composition from Fermax. The line is made up of 8 frames of different sizes where the different modules fit easily: pushbuttons, card holder, camera, amplifier, access control, etc. The frames allow a certain number of modules to be attached. There are two sizes of modules: V and W. W modules are twice the size of V modules.
Module Measurements.

- Module V: 105.2x47.5 mm (width-height).
- Module W: 105.2x95 mm (width-height).

It is possible to combine two or more plates, as long as they are from the same series, to have a greater capacity of buttons and accessories.
