F07709

CORA SURFACE BOX S6

Reference	EAN
7709	8424299077093

Description.

Description

- To install a plate, it is necessary to place a box on the wall where the plate will be fixed later.
- For those cases where it is not desired or possible to make a hole in the wall for the flush-mounted box (marble or stone facades, etc.), it is recommended to use a surface-mounted box.
- The depth is only 20 mm (leaving the total thickness of CORA on the surface at only 30 mm), and its design integrates perfectly with the aesthetics of the panel. In case of combining several panels, the use of the spacer set is not required.
- Aluminium profile with zamak upper and lower finish (stop). It is painted with saturated polyester resins with excellent exterior durability.
